Final Call to Mexican Factions to Agree to Peace May Follow.

WASHINGTON, Aug. 4 .- Desperate efforts are being made by supporters of Carranza in Mexico and by his legal advisers in Washington to persuade the first chief to yield to the proposal about made by the United States, the A B C nations of South America and Bolivia, Uruguay and Guatemala, that eral: he lay down his arms and enter into peace negotiations with the other factions south of the border.

Et. Paso, Aug. 4.—It was reported here to-day that Mrs. Pancho Villa, who arrived here on Monday night, is arranging to go to San Francisco and that she expects her husband to join her here for the trip in a few days. Villa, it was added, is collecting all the money he can get prior to quitting Chihuahua for the United States.

There is a persistent report in El Paso. There is a persistent report in El Paso that Villa is now in Juarez. The story

that Villa is now in Juarez. The story most generally credited is that Villa is still in Chihuahua, where he was recalled after almost reaching Juarez as a result of rioting by the starving people. News from Chihuahua to-day said that the saie of merchandise confiscated from Mexicans had about been concluded and that the stocks of foreigners will be put up next. The "sales" are virtual confiscations, for Villa is forcing the merchants to sell their goods for his own money, making them take his paper "pesos" for 50 cents when they are not bringing 2 cents on the border. It was said that the report of the rescinding of the Villa confiscation order was false.

mitting it to impartial review. Can Only Destroy Cargo.

The United States has contended that the treaty of 1828 provides that a German warship shall under no circumstances destroy an American ship carrying contraband, that the utmost that the German commander can do is to direct the captain of the merchantman to remove the contraband from his vessel.

Germany contends that inasmuch as the sinking of a vessel when carrying contraband is not expressly prohibited by the treaty the right may be assumed if it is in accord with the general principles of law. This, Germany declares, is the fact, and her only obligation under the treaty is to pay for ships and cargoes so destroyed.
